BRAND STORY

Luxzure is a testament to grit and dedication.

Finding opportunities and delivering on our commitments, as our founder has done, and continues to do, through our operations.

We began our story when Kyle Uy found opportunities to gain a foothold in the trucking industry. Kyle utilized his expertise in the field, gained through his experience and exposure to the trucking and heavy equipment importation business, through his family's long business history in the industry, to build, expand, and continue to improve operations, and increase the company's customer base. With his belief that one's reputation for excellence and customer-service will build his business, Luxzure continues to grow as a reliable partner in the transportation industry.

Our hard work means that we adapt to technology, respond to new demands of the market, and learn new ways of doing things. We continue to produce results and keep our customers' trust, because we believe that our word is as good as a contract. That good is not good, where excellence is expected. That there is no better signature, than a job well done.

We push forward, always.

These are words we live by.
